Global Oral Health Inequities: The Research Agenda
Centre Convencions Internacional Barcelona
Room 120-121
Tuesday, July 13, 2010

On July 13, 2010, in Barcelona, Spain, immediately before the IADR General Session, IADR President **David M. Williams** will host a symposium, *Global Oral Health Inequities: The Research Agenda*. Task groups have been formed on dental caries, periodontal disease, oral infections, oral cancer, craniofacial developmental abnormalities, and implementation and delivery. Each task group will be reporting on inequalities within that area, identifying gaps in our knowledge and understanding, and propose a three- to five-year research agenda. Plenary lectures will include those from Sir Michael Marmot on "Social Determinants of Health" and Lawrence Tabak on a "Global View from a Research Funder." All IADR Delegates are welcome to attend this special symposium which will run from 8 a.m. to 3:30 p.m. As you are making travel plans to attend the General Session, you may wish to arrive a day earlier.

AGENDA

8 a.m. - 8:15 a.m. **Opening remarks**
Professor David M. Williams, IADR President
