

2025 ANNUAL REPORT

IADR

INTERNATIONAL ASSOCIATION
FOR DENTAL, ORAL, AND
CRANIOFACIAL RESEARCH

ABOUT IADR

The International Association for Dental, Oral, and Craniofacial Research (IADR) represents the individual scientists, clinician-scientists, dental professionals, and students based in academic, government, non-profit and private-sector institutions who share our mission.

IADR Mission

Drive dental, oral, and craniofacial research for health and well-being worldwide.

IADR Vision

Oral health for the world through discovery and dissemination.

IADR VALUES

Scientific Excellence:

IADR values science conducted at the highest possible levels of rigor, innovation, and ethics, across disciplines, from discovery science to clinical implementation to global population health.

Social Responsibility:

IADR values the pursuit of science to improve health and well-being for all people, to reduce health inequalities and inequities, and proactively takes actions and positions to improve health.

Scientific Community:

IADR values a diverse and inclusive scientific workforce, promotes work-life balance, and supports educational activities and mentoring networks to develop the next generation of scientists.

MESSAGE FROM THE IADR PRESIDENT

It has been my honor, as President, to lead the International Association for Dental, Oral, and Craniofacial Research as we conclude another year dedicated to advancing dental, oral, and craniofacial (DOC) science in support of health and well-being around the world.

More than 4,600 individuals from 96 different countries joined us for the 103rd General Session & Exhibition of the IADR in Barcelona, Spain, another highly successful event held in conjunction with the 2025 IADR Pan European Regional Congress. With hundreds of oral presentations, thousands of posters, and an impressive variety of workshops and symposia, the IADR community once again pushed the boundaries of innovation and excellence in the field of DOC research.

The IADR Connect webinar series was in full form in 2025. In addition to a wide variety of public webinars, our members had exclusive access to eight webinars hosted by the IADR Scientific Groups & Networks, covering topics including Biomineralization, Peri-Implant Interfaces, 3D Printing in Dentistry, and much more. I would like to thank all our webinar organizers, presenters, and moderators for their outstanding work.

IADR completed its third year of fundraising in 2025, providing critical funding and support to new investigators and student researchers from low- and middle-income countries. Additionally, two of our newest awards, the Dianne Rekow Mentoring in Science Award and the John Greenspan Travel Award, were awarded for the first time.

As always, our official journals lead the way in providing cutting-edge findings in DOC research. In June, a supplemental issue of *JDR Clinical & Translational Research* described the innovative research conducted by early career dental faculty who are supported by the United States' Health Resources and Services Administration programs, demonstrating the importance of investing in long-term faculty career development, and exploring the

intersection of primary care, teaching, and research. In October, a new perspective article jointly published in the *JDR* and *JADA Foundational Science* highlighted the transformative potential of artificial intelligence in DOC research while cautioning against its misuse and ethical pitfalls. Another article published by the *JDR* in December applied machine learning to address data quality issues in the one of the largest health-related databases in the U.S., and to gain crucial new insights into the clinical heterogeneity of dental caries.

Oral health took center stage at the United Nations this September, receiving recognition during discussions of the Fourth High-Level Meeting on Noncommunicable Diseases and Mental Health. In partnership with the FDI World Dental Federation, IADR delivered joint statements urging governments to take bold, multi-sectoral action to address the social and commercial determinants of oral diseases. The statements called for fiscal measures to reduce risk factors, generate revenue, and strengthen oral health systems, while emphasizing the urgent need to close equity gaps in access to oral health care.

Despite the uncertainties unfolding in the United States and around the world, I encourage everyone to stay engaged, active, and hopeful in the year ahead. The challenges before us are significant, but so too are the opportunities for meaningful impact.

Sincerely,

Pamela C. Yelick
IADR President

MESSAGE FROM THE IADR CHIEF EXECUTIVE OFFICER

IADR celebrated an outstanding series of accomplishments in 2025 thanks to the dedication, expertise, and enthusiasm of our members. Your ongoing work moves us closer each year to towards our long-standing mission of driving dental, oral, and craniofacial research for health and well-being worldwide.

Our 103rd General Session & Exhibition in Barcelona brought together dental, oral, and craniofacial (DOC) researchers from around the world to present their latest work, exchange emerging ideas, and build lasting professional relationships with peers who share our passion for cutting-edge science. Held jointly with the IADR PER Regional Congress, the meeting featured an array of scientific offerings, including 354 Oral Presentations, 2,595 Poster Presentations, 6 Lunch & Learning Sessions, 23 Hands-on Workshops, 7 Satellite Symposia, 41 Symposia, and three Distinguished Lecture Series plenaries.

IADR's official publications maintain their high standing and well-deserved reputation for excellence, with the *Journal of Dental Research (JDR)* earning a 2-Year Journal Impact Factor™ of 5.9, ranking it #7 of 162 journals in the "Dentistry, Oral Surgery & Medicine" category. The *JDR* maintains its #1 ranking in total citations, with a total of 25,107 in 2024.

In October, *JDR* announced a joint publication perspective article with *JADA Foundational Science* that called for transparent disclosure of artificial intelligence use, robust verification methods, and clear distinction between synthetic and real-world data as ethical oversight, equity considerations, and human accountability remain central to responsible integration.

Another important study, "Uncovering Dental Caries Heterogeneity in NHANES Using Machine Learning," demonstrated the value of integrating data science techniques with large-scale observational data to uncover novel associations between disease markers and gain deeper insights into complex, multifactorial diseases.

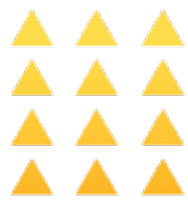

In September IADR, along with the FDI, delivered joint statements at the Fourth High-Level Meeting (HLM) of the UN General Assembly on NCDs and Mental Health. Reflecting our unwavering commitment to advancing the inclusion of oral health within the global NCD agenda, IADR called upon UN member states to uphold their commitments to the WHO Global Oral Health Action Plan, emphasizing its value as a blueprint for integrating oral health into universal health coverage and broader NCD strategies. The inclusion of oral health in the HLM draft Political Declaration marked important progress after years of persistent advocacy – its last inclusion was in 2011.

In November, a landmark decision was reached at the Sixth Conference of the Parties to the Minamata Convention on Mercury, where 2034 was set as the global phase-out date after which the manufacture, import, or export of dental amalgam will no longer be permitted. This important milestone underscored the power of unified, science-based advocacy led by FDI World Dental Federation and IADR, both of whom worked tirelessly to secure a balanced outcome by actively engaging in and influencing discussions throughout the negotiations.

I want to thank IADR Past President Satoshi Imazato, IADR President Pamela Yelick, and the IADR Board of Directors for their critical leadership, and the entire IADR member community around the world for their ongoing devotion and support.

Sincerely,

Christopher H. Fox, DMD, DMSc
IADR Chief Executive Officer

2025 HIGHLIGHTS

JDR and JDR CTR Announce New Impact Factors

The *Journal of Dental Research (JDR)* 2-Year Journal Impact Factor™ is now 5.9, ranking it #7 of 162 journals in the “Dentistry, Oral Surgery & Medicine” category. The *JDR* 5-year JIF is now 7.3, with an Immediacy Index of 0.9, an article Influence score of 1.657, and an Eigenfactor of 0.01126. The *JDR* once again maintains its #1 rank in total citations, with a total of 25,107 in 2024. In the same category, the *JDR Clinical & Translational Research (JDR CTR)* 2-Year JIF is now 2.2, placing it tied for rank #59. The *JDR CTR* 5-year JIF is now 2.8, with an Immediacy Index of 0.3, an article Influence score of 0.674, and an Eigenfactor of 0.00127. The *JDR CTR* had 983 total citations in 2024. This news comes from the 2024 Journal Citation Reports® (Clarivate™, 2025).

Generative Artificial Intelligence: Opportunities, Risks, and Responsibilities for Oral Sciences

In October, a new perspective article jointly published in the *JDR* and *JADA Foundational Science* highlighted the transformative potential of generative artificial intelligence (AI) in dental, oral, and craniofacial research while cautioning against its misuse and ethical pitfalls. Authored by Falk Schwendicke, LMU Clinics, Germany, et al., “Generative Artificial Intelligence: Opportunities, Risks, and Responsibilities for Oral Sciences” outlines how generative AI can accelerate scientific discovery. The paper calls for transparent disclosure of AI use, robust verification methods, and clear distinction between synthetic and real-world data. Ethical oversight, equity considerations, and human accountability remain central to responsible integration.

Arginine Dentifrices Significantly Reduce Childhood Caries

In August, IADR and AADOCR announced the publication of a new study in *JDR Clinical & Translational Research* that demonstrated that arginine dentifrices reduce dental caries in children with active caries as much as, or more than, a sodium fluoride dentifrice, depending on the arginine concentration. The study, “Arginine Dentifrices and Childhood Caries Prevention: A Randomized Clinical Trial” by Wei Lin, Sichuan University, et al. carried out a two-year, phase III, double-blind, three-arm, parallel-group, randomized controlled trial from April 15, 2019 through March 12, 2022 across three centers in China. It confirmed that depending on the concentration, arginine dentifrices offer a safe, effective alternative to sodium fluoride dentifrices.

HSRA’s Role in the Academic Oral Health Workforce

In June, IADR and AADOCR announced the publication of a supplemental issue of *JDR CTR* entitled, “HSRA’s Role in the Academic Oral Health Workforce.” The guest editors are Linda Rasubala, Yanfang Ren, and Thomas Caprio of the University of Rochester School of Medicine and Dentistry. The issue describes the innovative work done by junior dental faculty supported by the United States’ Health Resources and Services Administration (HRSA) programs, demonstrates the importance of investing in long-term faculty career development, and encourages dental educators and researchers to explore the intersection of primary care, teaching, and research.

INTERNATIONAL COLLABORATIONS

COP6 to the Minamata Convention on Mercury

In November, a landmark decision was reached at the Sixth Conference of the Parties (COP6) to the Minamata Convention on Mercury, where Parties agreed to set 2034 as the global phase-out date after which the manufacture, import, or export of dental amalgam will no longer be permitted. This milestone marks a major win for oral and public health and underscores the power of unified, science-based advocacy led by FDI World Dental Federation (FDI) and the IADR. FDI and IADR, with the support of the International Dental Manufacturers Association and the American Dental Association, worked tirelessly to secure a balanced outcome by actively engaging in and influencing discussions throughout the negotiations. The decision gives Parties (countries that have signed the treaty) nine years to adapt their national strategies and healthcare systems to this new framework. This aligns closely with FDI and IADR’s long-standing position advocating for a coordinated and equity-focused phase-down that allows all countries, especially low- and middle-income nations, to strengthen capacity, build technical expertise, and ensure continuity of patient care during the transition.

Participation in 78th WHO World Health Assembly

The 78th World Health Assembly took place in Geneva, Switzerland in May. IADR made several individual interventions, as well as joint and constituency statements with the FDI World Dental Federation and the World Health Professions Alliance, during several provisional agenda items. IADR also partnered with FDI to host a side event, “Global Coalition on Oral Health: Mobilizing for Equity, Leadership, and Action Towards the 4th UNHLM on NCDs and Beyond,” which focused on advancing oral health action nationally and globally through the Global Coalition on Oral Health. A panel discussion included IADR Vice President Jenny Gallagher and emphasized the value of multi-stakeholder collaboration as a driver of progress in oral health. The session also highlighted key recommendations for prioritizing the prevention and control of oral diseases at the upcoming UN High-Level Meeting on NCDs.

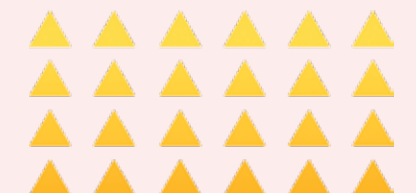

IADR Intervenes at UN Multistakeholder Hearing on NCDs and Mental Health

In preparation for the 4th High-Level Meeting of the UN General Assembly on the prevention and control of noncommunicable diseases and the promotion of mental health and well-being, the President of the UN General Assembly convened an interactive multistakeholder hearing on May 2 that provided a platform for stakeholders to share perspectives, highlight best practices, and propose actionable solutions to address the growing burden of NCDs and mental health conditions. IADR attended two panel discussions during the hearing and, in collaboration with the FDI World Dental Federation, prepared two formal interventions.

IADR CEO Christopher Fox also delivered a verbal intervention urging Member States to uphold their commitments to the WHO Global Oral Health Action Plan (GOHAP), emphasizing its value as a blueprint for integrating oral health into universal health coverage and broader NCD strategies. IADR was committed to advancing the inclusion of oral health within the global NCD agenda in the lead-up to the High-Level Meeting and continued this advocacy through its participation in several events at the World Health Assembly.

IADR Champions Oral Health at the UN General Assembly

Oral health stood tall during the United Nations this September, as it was recognized within the discussions of the Fourth High-Level Meeting (HLM) on Noncommunicable Diseases (NCDs) and Mental Health. IADR partnered with the FDI World Dental Federation to deliver joint statements during the HLM. With a verbal intervention in Panel 1, IADR and FDI urged governments to take bold multisectoral action to address the social and commercial determinants of oral diseases. The organizations called for fiscal measures such as health-promoting taxes on sugar-sweetened beverages, tobacco, and alcohol to reduce risk, raise revenue, and strengthen health systems. With a written intervention in Panel 2, IADR and FDI highlighted the importance of integrating oral health into essential benefit packages, aligning financing strategies with the WHO Global Oral Health Action Plan (2022–30), and closing equity gaps in access to care. They also underscored the need for investment in oral health research, data systems, and workforce innovation to support cost-effective, integrated care models.

103RD GENERAL SESSION & EXHIBITION

The 103rd General Session of the IADR was held in conjunction with the 2025 IADR Pan European Regional Congress on June 25-28, 2025. The event provided dental, oral, and craniofacial researchers the opportunity to present, discuss, and critique their latest findings in Barcelona, Spain.

Meeting Statistics

- › **4,681** Total Attendance
- › **96** Countries Represented
- › **354** Oral Presentations
- › **2,595** Poster Presentations
- › **3** Distinguished Lecture Series Presentation
- › **6** Lunch & Learning Sessions
- › **23** Hands-on Workshops
- › **41** Symposia
- › **7** Satellite Symposia
- › **10** Industry-sponsored Symposia
- › **17** Corporate Exhibit Booths
- › **25** Institutional Exhibit Booths

Distinguished Lecture Series

Leslea J. Hlusko
National Center for Research on Human Evolution (Spain)
How Variation in the Shape of Incisors Unlocked a Mystery About Human Evolutionary Adaptation
Thursday, June 26

Ahmed Ogwel
VillageReach
Opportunities for Oral Health in Global Health Security
Friday, June 27

Nobuhiko Kamada
University of Michigan IFRc, Osaka University
The Oral-Gut Connection in Gastrointestinal Disease
Saturday, June 28

Awards, Grants, and Fellowships

IADR has a growing portfolio of awards, grants, fellowships, and competitions that provides resources and recognition to extraordinary dental, oral, and craniofacial health scientists at all career stages around the world. We would like to thank everyone who participated in this year's competitions, and congratulations to all our award winners!

2025 IADR Hatton Award Winners — left to right: IADR CEO Christopher Fox, Saba Manafi, Dania Alkhatib, Mahrukh Imtiaz Ahmed, Lian Elaine Xue, Dang Khoa Nguyen, IADR President Satoshi Imazato. Not pictured: Mauricio Sousa

WEBINARS

IADR CONNECT

On the third Thursday of every month, the IADR Connect webinar series explores the latest advancements in dental, oral, and craniofacial research. This year's IADR Connect webinars have included:

- › **Phosphate, Proteins, and Patterning: Unraveling the Rules of Biomineralization**
November 20, 2025
Presented by the Mineralized Tissue Group
- › **Host, Microbe, and Mouth: A New Look at Oral Interactions**
October 16, 2025
Presented by the Microbiology & Immunology Group
- › **Building Critical Thinking Exercises into a Symbiotic Network with Outcomes-Based Learning, Assessment, and "Learning Moments"**
September 18, 2025
Presented by the Education Research Group
- › **Surgical and Non-surgical Laser Approaches in Regenerative Periodontal Applications**
August 21, 2025
Presented by the Lasers and Bio-photonics Group
- › **Peri-Implant Interfaces - From Laboratory Models to Clinical Design Strategies**
July 17, 2025
Presented by the Implantology Group
- › **Integrating Oral Care into General Care of Older Adults - The OHS-interRAI and Oral Health Care Track**
May 15, 2025
Presented by the Geriatric Oral Research Group
- › **3D Printing in Dentistry**
February 20, 2025
Presented by the Dental Materials Group
- › **Innovations in Oral Research to Engage Excluded Populations**
January 15, 2025
Presented by the Dental Anesthesiology & Special Care Research Group

OTHER IADR WEBINARS

The IADR Webinar & CE On Demand Library allows users to participate in upcoming live webinars and view our growing portfolio of content. Members can submit a webinar proposal at any time for consideration. 2025 webinars have included:

- › **Strengthening Regional Synergies: Opportunities for Collaboration and Success Stories from the AMER Region**
IADR Africa Middle East Region
November 7, 2025
- › **Team based Approaches in Improving Oral Health Inequalities: Celebrating the Contribution of Dental Hygienists, Dental Therapists and Oral Health Therapists**
IADR Global Oral Health Inequalities Research Network
May 20, 2025
- › **Oral Health Research: From Innovative Qualitative Paradigms to HIV/AIDS Quantitative Studies**
IADR Africa/Middle East Region
April 25, 2025
- › **Sociopolitical Determinants and Their Impact on Oral Health Inequalities**
IADR Global Oral Health Inequalities Research Network
March 6, 2025
- › **Digital Workflow: A Review of Findings**
IADR Digital Dentistry Research Network
February 21, 2025
- › **Articular Temporomandibular Disorders: Characteristics, Phenotypes, and Treatments**
International Network for Orofacial Pain and Related Disorders Methodology
February 19, 2025

RESEARCH BREAKTHROUGHS

IADR and AADOCR jointly own and publish the *Journal of Dental Research (JDR)*, *JDR Clinical & Translational Research (JDR CTR)*, and *Advances in Dental Research* through SAGE Publishing.

PHILANTHROPY

IADR received more than \$144,000 in donations in 2025.

ENDOWMENT STATUS

Endowment	Funding Status	Awarded (Year)
Newell W. Johnson Travel Award Endowment	Goal met in 2021	2022-2025
Dianne Rekow Mentoring in Science Award	1 st Goal met in 2024	1 st award presented in 2025
John Greenspan Travel Award Endowment	Goal met in 2024	1 st award presented in 2025

IADR NEWELL W. JOHNSON TRAVEL AWARD

The Newell W. Johnson Travel Award assists new investigators residing in low to upper middle-income countries to attend the IADR General Session & Exhibition. It is designed to encourage new investigators to undertake research and to support their attendance at the General Session for presentation of research in any of the IADR Scientific Group & Network research areas.

Recipients

2025
Aina Mohd Khairuddin,
University of Malaya

expenses to the IADR General Session & Exhibition. As donations increase, the funds will be awarded to assist both the mentor and mentee.

Inaugural Recipients – 2025

Erin Bumann (Mentor)
University of Missouri-Kansas City

Claire Houchen (Mentee)
University of Missouri-Kansas City

LEGACY SOCIETY

Lois Cohen, National Institutes of Health (NIH) and inaugural IADR Legacy Society donor

Pictured: IADR President Satoshi Imazato (2024-25), Lois Cohen, and IADR CEO Christopher H. Fox

JOHN GREENSPAN TRAVEL AWARD ENDOWMENT

IADR announced the John Greenspan Travel Award Endowment in April 2024. Dr. Greenspan was the seventy-third President of IADR (1996-97) and the seventeenth President of the American Association for Dental, Oral, and Craniofacial Research (1988-89). He passed away on March 31, 2023. The IADR John Greenspan Travel Award is given annually in the amount of \$2,000 to a new investigator residing in a low to middle-income country to present at the IADR General Session.

Inaugural Recipient – 2025

Heriati Sitosari
Universitas Gadjah Mada

Programs available for IADR donor support:

- Support of the IADR Mission
- IADR Adopt-a-Member Program
- IADR Centennial Travel Award for New Investigators
- IADR David B. Scott Fellowship
- IADR Dianne Rekow Mentoring in Science Award
- IADR Hatton Award Contributions
- IADR John Clarkson Fellowship
- IADR John A. Gray Fellowship
- IADR John Greenspan Travel Award Endowment
- IADR Isaac Schour Memorial Award
- IADR Newell W. Johnson Travel Award Endowment
- IADR Regional Development Program

IADR REGIONAL DEVELOPMENT PROGRAM

A priority of the IADR Strategic Plan is to promote oral health research worldwide, with specific emphasis on assisting researchers in regions with less developed research programs, including regions that may have developed and less developed Divisions/Sections within.

Since 1996, the Regional Development Program (RDP) has distributed more than \$1.5 million in funding to enhance research capacity and research infrastructure. The IADR Regional Development Committee reviewed 11 Letters of Intent for the 2025 RDP. In 2025, the following Divisions received funding from IADR:

- › Australia/New Zealand Division
- › Mexican and Colombian Divisions

ADOPT-A-MEMBER PROGRAM

The 2025 Adopt-a-Member program supported 40 members from 13 different IADR Divisions and Sections. Designed to provide IADR members with the opportunity to support colleagues who did not have the means to become members, the program aims to support oral and dental researchers in developing parts of the world.

To support attendance in challenging times, all IADR Members and IADR Student members from Low, Lower-Middle or Upper-Middle-Income Countries (LMIC) were eligible for a reduced pre-registration fee. This is an expansion of the reduced fee policy to include all members in LMIC's, not just the Region of the General Session.

MEMBERSHIP

2025

AWARDS

IADR funded and administered \$540,000 in 2025 with the following awards and fellowships:

IADR Gold Medal

Gottfried Schmalz, University of Regensburg

IADR Distinguished Service Award

Supported by J. Morita Corporation
Finbarr Allen, University College Cork

IADR Dianne Rekow Mentoring in Science Award **NEW!**

Erin Bumann (mentor) and Claire Houchen (mentee), University of Missouri-Kansas City

IADR Distinguished Scientist Awards

› Basic Research in Biological Mineralization Award

Supported by Unilever Oral Care
Stefan Habelitz, University of California, San Francisco

› Behavioral, Epidemiologic and Health Services Research Award
Stefan Listl, Heidelberg University

› Craniofacial Biology Research Award
Yuji Mishina, University of Michigan

› Geriatric Oral Research Award
Supported by Haleon

Frank Scannapieco, University at Buffalo

› H. Trendley Dean Memorial Award
Supported by Colgate-Palmolive Company

Sarah Baker, University of Lincoln

› Isaac Schour Memorial Award
Supported by the Sarnat Family Foundation

Xiaoxiao Cai, Sichuan University

› John Greenspan Global Oral Health Research Award
Supported by Haleon

Loc Do, The University of Queensland

› Oral Medicine & Pathology Research Award

Michael Brennan, Wake Forest University

› Pharmacology/Therapeutics/ Toxicology Research Award

Yun-Po Zhang, Colgate-Palmolive Company

› Pulp Biology & Regeneration Award

Supported by Dentsply Sirona

Ove A. Peters, The University of Queensland

› Research in Oral Biology Award

Supported by Church & Dwight Co., Inc.

Patricia Diaz, University at Buffalo

› Research in Periodontal Disease Award

Supported by Colgate-Palmolive Company

Andreas Stavropoulos, Malmö University

› Research in Prosthodontics and Implants Award

Georgios Romanos, Stony Brook University

› William H. Bowen Research in Dental Caries Award

Supported by Kenvue

Thomas Attin, University of Zurich

› Wilmer Souder Award

Supported by the IADR Dental Materials Group

Yu Zhang, University of Pennsylvania

› Young Investigator Award

Supported by P&G Professional Oral Health, Crest + Oral-B

Santosh Tadakamadla, La Trobe University

IADR Innovation in Oral Care Award

Supported by Haleon

Prasanna Neelakantan, University of Alberta

Yong Wang, University of Missouri- Kansas City

Ollie Yiru Yu, The University of Hong Kong

IADR E.W. Borrow Memorial Award

Supported by The Borrow Foundation

Francisco Ramos-Gomez, University of California, Los Angeles

IADR Centennial Travel Award for New Investigators

Supported by IADR

Sonia Apaza Ramos, Hospital Santa Gema de Yurimaguas

Naile Dame-Teixeira, University of Brasilia

Sandra Guaque-Olarte, Universidad Nacional de Colombia

Zeliha Güney, Ankara Medipol University

Bruno Gutierrez, Universidad del Valle

Lei Lei, Sichuan University

Jirakate Madiloggovit-Lower, Thammasat University

Nashib Pandey, College of Medical Sciences

João Gabriel Silva Souza, Guarulhos University

Xiaoyi Wu, Wuhan University

IADR Colgate Research in Prevention Travel Award

Supported by Colgate-Palmolive Company

Susanth Alapati, University of Aberdeen, Pan European Region

May Anny Alves Fraga, State University of Campinas, Latin American Region

Wener Chen, The University of Hong Kong, Asia/Pacific Region

Omotayo Francis Fagbule, University of Ibadan, Africa/Middle Eastern Region

Emmanuel Aladenika, University of Iowa, North American Region

Shengyan Yang, The University of Hong Kong, Asia/Pacific Region

IADR John Greenspan Travel Award **NEW!**

Heriati Sitosari, Universitas Gadjah Mada

IADR KULZER Travel Award

Supported by KULZER

Maria Helena Borges, State University of Campinas

Sepideh Fallah, Queen Mary University of London

Yo-Shiuan Fan, Osaka University

Ulysses Lenz, The University of Passo Fundo

Rafaela Passos de Souza, Western University

IADR Newell Johnson Travel Award **NEW!**

Aina Mohd Khairuddin, University of Malaya

IADR Lion Dental Research Award

Supported by Lion Corporation

Thi Dao, The University of Queensland (Behavioral, Epidemiologic, and Health Services Research)

Carolina Ruis Ferrari, University of São Paulo (Cariology Research)

Yasmin Louzon, The Hebrew University-Hadassah Hospital (Microbiology/ Immunology Research)

IADR STAR Network Fellowship

Yifan Lin, The University of Hong Kong

Shuntaro Yamada, University of Bergen

IADR John A. Gray Fellowship

Toan Van Phan, Chulalongkorn University, Southeast Asian Division

Toshio Nakao Fellowship

Supported by GC Corporation

Lais Cardoso, São Paulo State University

IADR/AADOCR William J. Gies Award

Supported by J. Morita Corporation

Biological Research

A PTHrP Gradient Drives Mandibular Condylar Chondrogenesis via Runx2

C. Tsutsumi-Arai, Y. Arai, A. Tran, M. Salinas, Y. Nakai, S. Orikasa, W. Ono, N. Ono. A PTHrP Gradient Drives Mandibular Condylar Chondrogenesis via Runx2. *J Dent Res* 103(1):91-100

Biomaterials & Bioengineering

Rapid Intrafibrillar Mineralization Strategy Enhances Adhesive-Dentin Interface

X. Gao, Z. Wang, H. Yang, C. Huang. Rapid Intrafibrillar Mineralization Strategy Enhances Adhesive-Dentin Interface. *J Dent Res*.103(1):42-50

Clinical Research

Copy Number Alterations Predict Development of OSCC from Oral Leukoplakia

X. Cai, J. Zhang, L. Li., et al. Copy Number Alterations Predict Development of OSCC from Oral Leukoplakia. *J Dent Res*.103(2):138-146

IADR/AADOCR Journal of Dental Research "Cover of the Year, 2024"

Improved Visualization of Oral Microbial Consortia

S.T. Ramirez-Puebla, J.L. Mark Welch, G.G. Borisy. *J Dent Res*, 103 (13): 1421-1427.

IADR Joseph Lister Award for New Investigators

Supported by Kenvue

First Place

Junyu Chen, Sichuan University, Asia/Pacific Region

Second Place

Hyuk-Jae Edward Kwon, University at Buffalo, North American Region

IADR Hatton Competition

Junior Category

First Place

Lian Elaine Xue, The University of Adelaide, Australian/ New Zealand Division

Second Place

Saba Manafi, University of Iowa, American Division

Senior-Clinical Research Category

First Place

Dang Khoa Nguyen, National Yang Ming Chiao Tun University, Southeast Asian Division

Second Place

Mahrugh Imtiaz Ahmed, University of Sharjah, United Arab Emirates Section

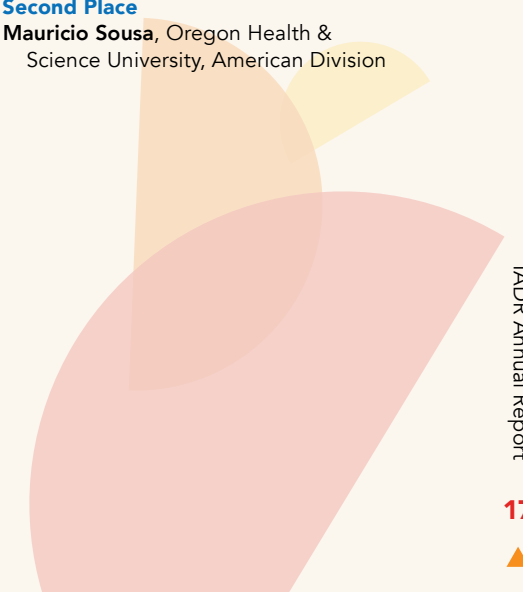

Senior Basic Science Category

First Place

Dania Alkhatib, Al-Quds University, Palestinian Section

Second Place

Mauricio Sousa, Oregon Health & Science University, American Division

2025–2026 IADR COMMITTEES

Annual Session Committee

Eric Reynolds (2027) (Australian/New Zealand Division), Chair
Kamran Awan (2028) (American Division)
Petros Papagerakis (2027) (Canadian Division)
Cinthia Tabchoury (2027) (Brazilian Division)
Greig Taylor (2028) (British Division)

Awards Review Committee

Philippe Bouchard (2026) (Continental European Division), Chair
Paulo Cesar (2028) (Brazilian Division)
Raina El Backly (2026) (Egyptian Section)
Olawunmi Fatusi (2026) (Nigerian Division)
Gaetano Isola (2028) (Continental European Division)
Ariene Leme-Kraus (2026) (American Division)
Li Mei (2028) (Australian/New Zealand Division)
Keiji Moriyama (2027) (Japanese Division)
Mohannad Nassar (2028) (United Arab Emirates Section)
Silvana Papagerakis (2028) (Canadian Division)

Constitution Committee

Geetha Duddanahalli Siddanna (2026) (American Division), Chair
Sukumaran Anil (2027) (Qatari Section)
Smriti Aryal AC (2028) (United Arab Emirates Section)
Gustavo Fernandes (2028) (American Division)
Julie Frantsve-Hawley (2027) (American Division)
Mohamed Jamal (2027) (United Arab Emirates Section)
Marina Kaizer (2026) (Australian/New Zealand Division)
Kazuhiko Nakano (2028) (Japanese Division)
Tuula Salo (2026) (Scandinavian Division)

Distinguished Scientist Award Committee

Ivo Lambrichts (Pulp Biology Research) (Continental European Division), Chair
Douglas Berkey (Geriatric Oral Res.) (American Division)
Anne George (Bio. Mineralization) (American Division)
Stan Gronthos (Research in Oral Bio.) (Australian/New Zealand Division)

Rebecca Harris (BEHSR) (British Division)
Toby Hughes (Young Investigator) (Australian/New Zealand Division)
Lisa Jamieson (H. Trendley Dean) (Australian/New Zealand Division)
Klaus Jandt (Wilmer Souder) (Continental European Division)
Matthias Kern (Pros. & Implants) (Continental European Division)
Asma Khan (P/T/T Research) (American Division)
Mary Marazita (Cranio. Biology) (American Division)
Stefan Ruhl (Salivary Research) (American Division)
Anton Sculean (Res. in Periodontal Research Disease) (Continental European Division)
Caroline Shiboski (Oral Med. and Pathology) (American Division)
Alastair Sloan (Isaac Schour) (Australian/New Zealand Division)
Doron Steinberg (Bowen Award/ Caries Res.) (Israeli Division)
Richard Watt (Global Oral Health) (British Division)

Ethics in Dental Research Committee

Sylvia Piovesan (2026) (Uruguayan Division), Chair
Lilliam Pinzon (2027) (American Division)
Ines Salveraglio (2027) (Uruguayan Division)
Gianrico Spagnuolo (2028) (Continental European Division)
Dimitris Tatakis (2028) (American Division)

Fellowships Committee

Sarah Baker (2027) (British Division), Chair
Hazem Abbas (2028) (Japanese Division)
Jae-Kook Cha (2027) (Korean Division)
Yong-Hee Chun (2028) (American Division)
Muhammad Fareed (2028) (Pakistani Section)
Krisztina Márton (2028) (Continental European Division)

Honorary Membership Committee

Paula Moynihan (2026), (Australian/New Zealand Division), Chair
Pamela Den Besten (2027), (American Division)
Ophir Klein (2030), (American Division)
Brian O'Connell (2029), (Irish Division)
Eric Reynolds (2028), (Australian/New Zealand Division)

Innovation in Oral Care Awards Committee

Anuradha Polster (2026) (Australian/New Zealand Division), Chair
Aline Castilho (2028) (American Division)
Yong-Hee Chun (2026) (American Division)
Mark Darling (2027) (Canadian Division)
Saja Muhsin (2027) (Iraqi Division)
William Papaioannou (2028) (Continental European Division)
Anuradha Polster (2026) (Australian/New Zealand Division)
Deepak Saxena (2027) (American Division)
Alastair Sloan (2026) (Australian/New Zealand Division)
Cynthia Yiu (2028) (Southeast Asian Division)

Joseph Lister Award for New Investigators Committee

Patricia Miguez (2027) (American Division), Chair
David Kim (2028) (American Division)
Kang Ko (2028) (American Division)
Chun-Teh Lee (2028) (American Division)
Francisco Paula-Silva (2028) (Brazilian Division)
Sonali Sharma (2027) (Indian Division)

KULZER Travel Award Committee

Turki Bakhsh (2026) (Saudi Arabian Division), Chair
Fabrcio Collares (2028) (Brazilian Division)
Jae-Sung Kwon (2027) (Korean Division)
Aline Neves (2028) (Brazilian Division)
Flavia Pires Rodrigues (2028) (British Division)
Sabrina Sochacki (2026) (American Division)

Membership and Recruitment Committee

Guang Hong (2026) (Japanese Division), Chair
Marwa Baraka (2026) (Egyptian Section)
Aylin Baysan (2028) (British Division)
Maha El Tantawi (2028) (Egyptian Section)
Clarissa Fontoura (2028) (American Division)
Kazunori Ikebe (2028) (Japanese Division)
Christopher Lynch (2028) (Irish Division)
