IADR/AADOCR/CADR General Session Open for Late Breaking Abstract Submissions

The IADR invites you to submit an abstract to the 2024 IADR/AADOCR/CADR General Session (New Orleans, LA, USA) for the scientific program covering Late Breaking News. These abstracts are meant to cover new research findings made since the close of the regular abstract submission process. The IADR/AADOCR Annual Session Committee will review the late breaking abstracts.

Please keep in mind:

1. Accepted abstracts will be organized to be presented in poster sessions within the scientific program for the IADR/AADOCR/CADR General Session taking place Thursday, March 14 through Saturday, March 16, 2024.

2. The abstracts will follow the same format, word limit, rules, and guidelines as traditional IADR/AADOCR/CADR General Session abstracts as outlined in the Call for Abstracts.

3. Late breaking abstracts cannot be duplicative of abstracts already submitted as an IADR General Session Abstract Submission type. This is not an opportunity to submit updates or revise abstracts already submitted.

4. Designated presenters on late breaking abstracts may not already be a presenter on an abstract submitted as an IADR General Session Abstract Submission type.

5. Late breaking abstracts may not apply for any abstract based awards.

6. Accepted abstract presenters are required to complete registration by the presenter pre-registration deadline of January 11, 2024 to keep their abstract in the scientific program.

7. Space for late breaking abstracts is limited.

To submit your abstract: https://24iags.abstractcentral.com/login

Submission Deadline: December 20, 2023, 11:59 p.m. PT
E-mail notifications of Acceptance/Rejection will be sent January 4, 2024
