The International Association for Dental Research (IADR), headquartered in Alexandria, Va., USA, is a nonprofit organization with nearly 12,500 members worldwide. Its mission is: (1) to advance research and increase knowledge for the improvement of oral health worldwide; (2) to support and represent the oral health research community; and (3) to facilitate the communication and application of research findings.

MESSAGE FROM THE PRESIDENT

This has been a tremendous year of growth and advancement for the International Association for Dental Research (IADR). As the Association celebrated its 90th anniversary, I was reminded of the dreams of IADR’s founders and their successors.

Their dreams were to establish an international association with branches spread all over the world, with Sections and Divisions, which would organize local meetings where their members could present the results of their experiences, and exchange new ideas. In a most humble beginning, IADR was established in 1920 by a group of 25 members under the leadership of William John Gies, and two years later the Association held its first meeting wherein two papers were presented. Since then, IADR has continued to make this dream come true by having an annual General Session where cutting-edge scientific content is shared. Eighty-eight years after the first General Session was held, more than 4,000 abstracts were presented at the 88th General Session of the IADR, which was held in Barcelona, Spain, together with the 5th General Session of the IADR Pan European Region.

In addition to a hugely successful General Session, this year IADR has recorded its highest overall membership in history. More than 12,000 people chose to be part of the Association, and to support the mission of advancing oral health worldwide. During my inaugural speech at the 88th General Session, I emphasized the important role Scientific Groups have in the further development of Sections and Divisions within the Regions. I also strongly encouraged every IADR member to join a Scientific Group and Network, since they are the backbone of our Association.

The Regional Boards should organize meetings similar to the General Session: with symposia, workshops, and other activities, with the participation of as many experts from different Scientific Groups and Regions as possible. They must advocate the need to guarantee funds to support research with local authorities and the corporate sector.

The successes that IADR has celebrated this year have been made possible thanks to those who support IADR among members, volunteers working in different committees and boards, authorities, and industry. Invaluable also was the dedication and competency of the IADR HQ Staff.

I emphasize my confidence that with the support of the Scientific Groups/Networks of the IADR Regions, Divisions and Sections, IADR will strengthen its advocacy in each country, and contribute towards overcoming inequality with improved oral research worldwide.

Sincerely,

Maria Fidela de Lima Navarro
IADR President
MESSAGE FROM THE EXECUTIVE DIRECTOR

Under the leadership of IADR President Maria Fidela de Lima Navarro and an outstanding Board of Directors, the International Association for Dental Research (IADR), the Association celebrated record-breaking milestones and successfully completed another year of key accomplishments toward furthering our Mission and in delivering outstanding membership services.

In 2010, the International and American Associations for Dental Research's Journal of Dental Research (JDR) remained the number one journal of 64 journals published in the “Dentistry, Oral Surgery & Medicine” category according to the 2009 Five-Year Scientific Impact Factor (SIF) rankings, published by the Journal Citation Reports (JCR). This latest report shows that the JDR’s Five-Year SIF increased from 3.966 to 4.195. This success is a testament to the high-caliber of research that continues to be published in JDR.

With the support of IADR’s members who support the mission of the Association, membership grew to more than 12,000 for the first time in the history of the Association! Among other firsts, IADR held its largest meeting ever, with nearly 7,000 people attending this 88th IADR General Session & Exhibition in Barcelona, Spain, held in conjunction with the 5th General Session of the IADR Pan European Region. Those attending the General Session could choose from among 5,066 total presentations (4,002 posters, 935 oral presentations, 32 symposia, 29 Lunch & Learning sessions, five hands-on-workshops and three Distinguished Lecture Series presentations), and 73 exhibit booths represented. IADR also received a record-breaking amount of abstracts for the meeting.

During this meeting, IADR inducted as its president Maria Fidela de Lima Navarro. This is the first time IADR has had a president from our Latin American Region. The record-breaking growth of the IADR membership in all Regions and the history-making induction of our first president from our Latin American Region is evidence that IADR has evolved into a truly global organization.

Immediately before the IADR General Session, Immediate Past President David Williams organized a symposium on “Global Oral Health Inequalities: The Research Agenda.” This well-attended symposia continues to have an impact as the proceedings will be published by May 2011 and further developments will be announced in 2011 and 2012.

In closing, I am grateful for the members of IADR who have continued to support the Association and the mission of advancing oral health worldwide. I extend my thanks and appreciation to the IADR Board of Directors and IADR President Maria Fidela de Lima Navarro who, along with all Board Members, works tirelessly to further the Mission of the Association.

Sincerely,

Christopher H. Fox, D.M.D., D.M.Sc.
Executive Director

The record-breaking growth of the IADR membership in all Regions and the history-making induction of our first president from our Latin American Region is evidence that IADR has evolved into a truly global organization.
HIGHLIGHTS

▷ IADR TURNS 90 AND CELEBRATES RECORD-BREAKING MEMBERSHIP
As of December 10, 2010, IADR has been serving the dental, oral and craniofacial research community for 90 years. In 1920, IADR was established in New York City, USA, with less than 20 members. In 2010, IADR membership increased to more than 12,000 members for the first time in the history of the Association.

▷ IADR HOLDS ITS LARGEST GENERAL SESSION AND INDUCTS FIRST PRESIDENT FROM LAR
In July, IADR held its largest meeting ever, with nearly 7,000 people attending its 88th General Session & Exhibition in Barcelona, Spain, held in conjunction with the 5th General Session of the IADR Pan European Region. During the meeting, IADR inducted as its president Maria Fidela de Lima Navarro. This is the first time IADR has had a president from our Latin American Region.

▷ WILLIAM GIANNOBILE BEGINS JOURNAL OF DENTAL RESEARCH EDITORSHIP
In 2009, IADR and AADR announced that William Giannobile was selected as the Editor-in-Chief of the *Journal of Dental Research* (*JDR*). Giannobile began his term in April 1, 2010, and is the successor to Anthony ‘Tony’ Smith, who served as the *JDR* Editor-in-Chief from 2004-2010. Giannobile was appointed as the *JDR* Editor-in-Chief after an extensive international search process.

▷ IADR LAUNCHES MOBILE VERSION OF GLOBAL RESEARCH UPDATE
In July, IADR launched a mobile version of its monthly *Global Research Update* e-newsletter. Now, subscribers can read the e-newsletter on their mobile devices. The *Global Research Update* is an IADR members-only monthly e-newsletter that features research news, funding opportunities, members in the news, and information on conferences and symposia.

▷ JDR INCREASES ITS FIVE-YEAR SIF AND REMAINS NUMBER ONE DENTAL JOURNAL OF 64 IN ITS CATEGORY
The *JDR* remains the number one journal of 64 journal published in the “Dentistry, Oral Surgery & Medicine” category according to the new 2009 Five-Year Scientific Impact Factor (SIF) rankings, published by the *Journal Citation Reports* (*JCR*).
This latest report shows that the *JDR*’s Five-Year SIF increased from 3.966 to 4.195.
The *JDR* also continues to hold the highest Eigenfactor Score in the field. The Eigenfactor Score calculation is based on the number of times articles from the journal published in the past five years have been cited in the *JCR* year, but it also considers which journals have contributed these citations so that highly cited journals will influence the network more than lesser cited journals. References from one article in a journal to another article from the same journal are removed, so that Eigenfactor Scores are not influenced by journal self-citations.

▷ IADR INSTITUTES THREE NEW AWARDS
IADR instituted three new awards and encouraged members of the Association to apply. The call for applications were opened in 2010 and the awards will be administered in 2011. The IADR Colgate Community-Based Research Award for Caries Prevention is sponsored by IADR with funding provided exclusively by Colgate-Palmolive Company. The award(s) of up to $75,000 will be provided annually to recipients to advance research in the field of cariology to promote oral health improvement globally, with a focus on community-based research for the prevention and management of caries. The Academy of Osseointegration Innovation in Implant Sciences Award is jointly sponsored by the IADR and the Academy of Osseointegration (AO), with funding provided exclusively by the AO. The Award is intended to help investigators pursue innovative and novel research in oral care that involves, but is not limited to, dental implant therapy. One competitive award of up to $75,000 will be provided to recipients. The IADR/Heraeus travel award was implemented in 2010 and will be administered in 2011. The objective of this new award program is to encourage young investigators to undertake research in new and innovative testing methods of dental materials, and new ideas and approaches to improve and develop dental materials.
INTERNATIONAL COLLABORATIONS

FDI
IADR is supporting the FDI Global Caries Initiative (GCI) by delivering the science to support the initiative. IADR also participated in the FDI World Dental Congress in Salvador, Brazil September 2-5, 2010. IADR was represented at the FDI General Assembly and submitted a report of IADR activities of interest to the FDI.

Representatives from the FDI have been part of the Task Groups for the GOHIRA initiative (see below).

WHO
IADR is one of two oral health NGOs to the WHO (the other being the FDI). As such, IADR has a responsibility to continue close collaboration with the Oral Health Program and Dr. Poul-Erik Petersen. IADR has partnered with the WHO Oral Health Program on several recent initiatives, including the 2004 HIV and Oral Health conference in Phuket, the 2005 World Congress on Preventive Dentistry, and the 2006-07 conferences on fluoride held with the FDI in Geneva and China, and support for the passage of the 2007 World Health Assembly (WHA) resolution, “Oral health: action plan for promotion and integrated disease prevention”. The resolution included a specific recommendation to strengthen oral health research. In 2009, the WHO has joined the IADR in co-sponsoring the WCPD and Dr. Petersen addressed the delegates in the opening plenary. In 2010, the WHO was very helpful in getting IADR credentialed as a partner in the Global Mercury Partnership (see below).

UNEP
In December 2009, the IADR Board moved to join the United Nations Environment Programme (UNEP) Global Mercury Partnership (GMP). The goal of the UNEP GMP is to protect human health and the global environment from the release of mercury and its compounds by minimizing and, where feasible, ultimately eliminating global, anthropogenic mercury releases to air, water and land. A letter of approval of partnership status was received in October 2010 after assistance from WHO Oral Health Responsible Officer, Poul Erik Petersen.

GLOBAL ORAL HEALTH INEQUALITIES: THE RESEARCH AGENDA
On July 13, 2010, in Barcelona, Spain, then IADR President David M. Williams hosted a symposium, Global Oral Health Inequalities: The Research Agenda. Task groups were formed on dental caries, periodontal disease, oral infections, oral cancer, craniofacial developmental abnormalities, and implementation and delivery. Each task group reported on inequalities within that area, identifying gaps in our knowledge and understanding, and propose a three- to five-year research agenda. Plenary lectures were provided by Sir Michael Marmot on “Social Determinants of Health” and Lawrence Tabak on a “Global View from a Research Funder.” A report will be published in 2011 as a special issue of Advances, an e-supplement of the Journal of Dental Research.
More than 4,000 abstracts were presented at the General Session.

The Exhibition boasted 73 exhibit booths.

President Maria Fidela de Lima Navarro delivered her inaugural address entitled "Reducing Inequality with Improved Oral Research Worldwide!" She is the first IADR president for the Latin American Region.

Then IADR President David M. Williams hosted the Global Oral Health Inequalities: The Research Agenda. Task groups were formed on dental caries, periodontal disease, oral infections, oral cancer, craniofacial developmental abnormalities, and implementation and delivery.

Each task group reported on inequalities within that area, identifying gaps in our knowledge and understanding, and propose a three- to five-year research agenda. Plenary lectures included those from Sir Michael Marmot on “Social Determinants of Health” and Lawrence Tabak on a “Global View from a Research Funder.”
RESEARCH BREAKTHROUGHS

In 2010, at 4.195, the Journal of Dental Research holds the highest Five-Year Impact Factor of all dental journals publishing original research, with a cited half-life >10 years, reflecting the influential nature of the Journal’s content. It also has the highest Eigenfactor Score in the field.

Research in 2010 included these and other informative papers:

**EFFECT OF PTK/ZK ON THE ANGIOGENIC SWITCH IN HEAD AND NECK TUMORS**

The results of the research demonstrated that PTK/ZK blocks downstream targets of VEGF signaling in endothelial cells, and suggests that PTK/ZK may inhibit the angiogenic switch in head and neck tumors.

**TI NANO-NODULAR STRUCTURING FOR BONE INTEGRATION AND REGENERATION**
T. Ogawa, L. Saruwatari, K. Takeuchi, H. Aita and N. Ohno

This research concluded that the discovered titanium nano-nodular self-structuring has been proven feasible on biocompatible materials other than titanium, offering new avenues for the development of implant surfaces and other implantable materials for better bone-generative and -regenerative potential.

**SALIVARY PROCALCITONIN AND PERIODONTITIS IN DIABETES**
C.W. Bassim, R.S. Redman, D.J. DeNucci, K.L. Becker and E.S. Nylen
*J Dent Res* 87: 630-634.

This study demonstrates, for the first time, the presence of procalcitonin (ProCT), an established serum marker of infection, in saliva.

**FGF-2 STIMULATES PERIODONTAL REGENERATION: RESULTS OF A MULTICENTER RANDOMIZED CLINICAL TRIAL**

The results of this study strongly suggest that topical application of FGF-2 can be efficacious in the regeneration of human periodontal tissue that has been destroyed by periodontitis.

**DENTAL PULP CELLS FOR INDUCED PLURIPOTENT STEM CELL BANKING**

Analysis of these data collected in this research demonstrates the promising potential of DPC collections as a source of iPS cell banks for use in regenerative medicine.

**TASTE GENES ASSOCIATED WITH DENTAL CARIES**
S. Wendell, M. Brown, M. Cooper, R. DeSensi, M. Marazita, X. Wang, R. Weyant, R. Crout and D. McNeil
*J Dent Res* 89: 1198-1202.

At the conclusion of this study, the researchers hypothesized that genetic variation in taste pathway genes (TAS2R38, TAS1R2, GNAT3) may be associated with dental caries risk and/or protection.
SCIENTIFIC GROUPS AND NETWORKS

Through the IADR Scientific Groups & Networks, members are able to collaborate with leading researchers in more than 20 specialized fields.

Behavioral, Epidemiologic and Health Services Research
Cariology Research
Craniofacial Biology
Dental Anesthesiology Research
Dental Materials
Diagnostic Sciences
Education Research
Evidence-based Dentistry Network
Geriatric Oral Research
Implantology
International RDC/TMD Consortium Network
Microbiology/Immunology
Mineralized Tissue
Network for Practice-based Research
Neuroscience
Nutrition Research
Oral and Maxillofacial Surgery
Oral Health Research
Oral Medicine and Pathology
Periodontal Research
Pharmacology/Therapeutics/Toxicology
Prosthodontics
Pulp Biology and Regeneration
Salivary Research
PROGRAMS

IADR continues to strengthen research efforts and dental research activities in all areas of the world through the Adopt-a-Member Program, the Meeting Dividend Program and the Regional Development Program.

› ADOPT-A-MEMBER
The IADR Adopt-a-Member program supported 88 members in 2010, in the following Divisions: Argentine, Brazilian, Chinese, Colombian, Continental European, East and Southern Africa, Ecuadorian, Nigerian, Panamanian, Peruvian, Southeast Asian, Uruguayan and Venezuelan. Designed to provide IADR members with the opportunity to support colleagues who did not have the means to become members, the program aims to support oral and dental researchers in developing parts of the world. IADR members donated more than $6,900 to support this program.

› MEETING DIVIDEND
Through the Meeting Dividend Program, more than $180,000 was distributed to 24 IADR Divisions, including the American, Argentine, Australia/New Zealand, Brazilian, British, Canadian, Chilean, Chinese, Colombian, Continental European, East and Southern African, Iranian, Irish, Israeli, Japanese, Korean, Kuwaiti, Mexican, Nigerian, Peruvian, Scandinavian, South African, Southeast Asian and Venezuelan Divisions. Each Division had representation at the IADR General Session & Exhibition in Barcelona, Spain, and received at least $1,000. The program offers additional funds that can be used at the Divisional level to develop membership and encourage research.

› REGIONAL DEVELOPMENT
In 2010, the IADR Regional Development Program (RDP) awarded approximately $50,000 in grants to the following Divisions and Sections:

• Southeast Asian Division (SEA), to “Conduct workshops on scientific writing and reporting in the SEA Division.”

• East & Southern Africa Division, for “Funds for upcoming Division Meeting in Tanzania in 2010.”

• Australia/New Zealand/Chile, for “Training in Research Methods and to Conduct an Assessment of Oral Health in the Chilean Section of the IADR.”

• Syrian Section, for “Course on Randomized Clinical Trials and Publication in Syria Section.”
AWARDS

IADR funded and administered more than $500,000 in the following awards and fellowships in 2010.

IADR/Colgate Research in Prevention Travel Awards
IADR David B. Scott Fellowship
IADR Distinguished Service Award
IADR Distinguished Scientist Awards
IADR E.W. Borrow Memorial Award
IADR/GlaxoSmithKline Innovation in Oral Care Awards

IADR/GLAXOSMITHKLINE INNOVATION IN ORAL CARE AWARDS
Supported by GlaxoSmithKline
In its seventh year of award support, GSK Consumer Healthcare has contributed more than $1.6 million. Each of the three 2010 winners will receive a $75,000 unrestricted research grant, which is funded by GSK Consumer Healthcare and administered by IADR. The 2010 winners were:

Robert Patrick Allaker, University of London, Institute of Dentistry, UK
“Multifunctional Nano-biomaterials for Implant-based Dental Reconstruction Products”

Daniel Grenier, Groupe de Recherche en Ecologie Buccale, Université Laval, Québec, Canada
“Therapeutic Potential of Citrus Auraptene for Periodontal Disease”

Craig Miller, University of Kentucky College of Dentistry, USA
“POC Immunoassay Test Strip for the Diagnosis of Periodontal Disease”

IADR/AADR JOURNAL OF DENTAL RESEARCH “COVER OF THE YEAR, 2009”
This recognition is presented annually for the previous year’s JDR cover image that enhances the impact of the article, and is both scientifically novel and aesthetically pleasing. The “Cover of the Year, 2009” award was presented to:

IADR HONORARY MEMBERSHIP
The three most recent living IADR Past Presidents may select an Honorary Member who has made significant contributions to and/or supports dental research. This year, Honorary Membership is bestowed on Harald zur Hausen, Nobel Laureate, Professor Emeritus and former Chairman and Scientific Director of German Cancer Research Centre, Heidelberg, Germany for his outstanding scientific contributions to our understanding of viruses as etiologic agents for cancer, vaccine development, and significant contributions to oral, dental, and craniofacial research.

IADR/HERAEUS TRAVEL AWARD
This travel award, sponsored by Heraeus, was implemented in 2010 and will be administered in 2011. The objective of this new award program is to encourage young investigators to undertake research in new and innovative testing methods of dental materials, and new ideas and approaches to improve and develop dental materials. The recipients of the first Heraeus Travel Awards were:

Jonathan Y. An (University of Washington, Seattle, USA)
Yu Furuya (Osaka University, Suita, Japan)
Mohammed Hadis (University of Birmingham, UK)
Philipp Kohorst (Hannover Medical School, Germany)
Sybele Saska (Universiddado Estadual Paulista, Araraquara, Brazil)
IADR DISTINGUISHED SCIENTIST AWARDS

Each of the 16 IADR Distinguished Scientist Awards recognizes a career of distinguished accomplishments in research and development.

Isaac Schour Memorial Award
Supported by an endowment provided by Dr. Bernard G. Sarnat and Rhoda G. Sarnat
Through the Sarnat Family Foundation
Antonios Mikos, Rice University, Houston, Texas, USA

Behavioral, Epidemiologic and Health Services Research Award
Supported by Unilever Oral Care
Martin Downer, University of Manchester, Bristol, England, UK

Basic Research in Biological Mineralization Award
Supported by Unilever Oral Care
Paul Krebsbach, University of Michigan, Ann Arbor; USA

Craniofacial Biology Research Award
Supported by DENTSPLY International
Bjørn Olsen, Harvard University, Boston, Mass., USA

H. Trendley Dean Memorial Award
Supported by the Colgate-Palmolive Company
W. Murray Thomson, University of Otago, Dunedin, New Zealand

Research in Dental Caries Award
Supported by Johnson & Johnson Oral Health Products
Svante Twetman, University of Copenhagen, Denmark

Oral Medicine and Pathology Research Award
Supported by Unilever Oral Care
Lakshman Samaranyake, University of Hong Kong, SAR, China

Geriatric Oral Research Award
Supported by GlaxoSmithKline Consumer Healthcare
Paula Moynihan, Newcastle University, Newcastle Upon Tyne, England, UK

Research in Oral Biology Award
Supported by Church & Dwight Company, Inc.
Sharon Wahl, NIDCR, NIH, Bethesda, Md., USA

Basic Research in Periodontal Disease Award
Supported by Colgate-Palmolive Company
Martin Taubman, The Forsyth Institute, Boston, Mass., USA

Pharmacology/Therapeutics/Toxicology Research Award
Wyeth Consumer Healthcare
Sharon Gordon, University of Maryland, Baltimore, USA

Research in Prosthodontics and Implants Award
Supported by Astra Tech Inc.
Ronald Ettinger, University of Iowa, Iowa City, USA

Pulp Biology & Regeneration Award
Supported by DENTSPLY Caulk
Hervé Lesot, Université de Strasbourg, France

Salivary Research Award
Supported by Wm. Wrigley, Jr. Company
Roland Jonsson, University of Bergen, Norway

Wilmer Souder Award
Supported by the William T. Sweeney Memorial Fund & by the IADR Dental Materials Group
Sally Marshall, University of California, San Francisco, USA

Young Investigator Award
Supported by P&G Professional Oral Health, Crest Oral-B
Paul Cooper, University of Birmingham, England, UK

IADR/AADR WILLIAM J. GIES AWARDS

Sponsored by J. Morita USA

These awards, for the best papers published in the Journal of Dental Research, are presented in three categories: Biological, Biomaterials & Bioengineering and Clinical. The award is named for William J. Gies, the founder of the Journal of Dental Research. Nominations may be made by any person, and the papers to be chosen must describe work which has very significantly advanced knowledge in some aspect of dental research. Papers eligible for consideration are those published during the 12-month period (July-June) immediately preceding the IADR General Session. The award consists of a monetary prize of $1,000 and a plaque. The Gies Award is open to anyone who publishes in the Journal of Dental Research, the official publication of the IADR/AADR.

Clinical Research

Biological Research

Biomaterials & Bioengineering Research
The IADR had 12,442 members in 2010, and added the following new sections: Egyptian & Iraqi.
The IADR had 12,442 members in 2010, and added the following new Sections: Egyptian & Iraqi.
IADR has 25 Divisions and 12 Sections that comprise five Regions. IADR is organized into Regions for purposes of more effective and efficient delivery of IADR Member Services. Divisions are formed when a nation, or group of geographically related nations, with 50 or more members is approved by Council. Sections can be formed with 10 or more members. All Divisions and Sections are within one of the five Regions. IADR’s organizational structure is best poised to promote research around the world and grow membership.

**AFRICA & MIDDLE EAST REGION**  
(East and Southern African, Egyptian [Section], Iranian, Iraqi [Section], Jordanian [Section], Kuwaiti, Nigerian, Saudi Arabian [Section], South African, Sudanese [Section], Syrian [Section])

- Syrian Section The Syrian Section of IADR, in coordination with the Damascus University and the Syrian British Medical Society in the UK and Ireland (SBMS), held the 2nd Meeting of the Syrian Section in Omayad Palace in Damascus, October 28-30, 2010. More than 40 keynote speakers from the Middle East, Africa, Syria and the UK presented research at this meeting, with participants from Syria and the Middle East.

- Jordanian Section The IADR Jordanian Section 7th Annual was held in conjunction with the 3rd Scientific Conference of the University of Jordan Faculty of Dentistry June 3, 2010, at the University of Jordan, Amman. Nearly 20 abstracts were presented at this scientific meeting themed “Improving Oral Care for Patients with Special Needs.”

**ASIA/PACIFIC REGION**  
(Australian/New Zealand, Chinese, Indian [Section] Japanese, Korean, Mongolian [Section], Southeast Asian) The Golden Jubilee Meeting of the IADR Australian/New Zealand Division was held in Kiama, New South Wales, Australia, from September 26-29, 2010. There were 26 poster presentations and 26 oral presentations. In addition, there were 24 entrants for the IADR/Unilever Hatton Travel Awards Competition. The competition was held in a closed session, but the posters were presented later in a session open for public viewing. One hundred and fifteen members attended the meeting. The final day also served as a continuing education forum for non-member local dentists on the theme of how research informs general practice. During the forum, the dental deans took part in a question and answer session on issues surrounding dental education in the region.

**LATIN AMERICAN REGION**  
(Argentine, Brazilian, Chilean, Colombian, Costa Rican [Section], Ecuadorian [Section], Panamanian [Section], Peruvian, Uruguayan, Venezuelan) Through a generous sponsorship by IADR Institutional Section member Johnson & Johnson, the Latin American Region was able to offer complimentary membership to more than 200 researchers in 2010. Johnson & Johnson has partnered with IADR under the leadership of the IADR President, Maria Fidela de Lima Navarro, to grow membership in the Latin American Region, and expose more Latin American researchers to the benefits of IADR.
Twenty four posters were presented at the AADR 3rd Fall Focused Symposium.

• **Uruguayan Section** On November 13, 2010, the Uruguayan Division of the International Association for Dental Research held a workshop themed “Clinical Treatment of Dental Caries in the XXI Century: an Evidence-based Approach.” During the workshop, a talk was given by IADR member Marisa Maltz. The workshop, that had high academic level and discussions, was another important step in the learning process in research and experience exchanges for SUJO members.

› **NORTH AMERICAN REGION**
   (American, Canadian, Mexican Divisions)

• **American Association for Dental Research** The 39th Annual Meeting & Exhibition of the American Association for Dental Research and the 34th Annual Meeting of the Canadian Association for Dental Research took place March 3-6, 2010, and drew a total registration of 2,571 people from 37 countries. Those attending the Meeting could choose from among 191 sessions and 1,518 abstracts presentations (including 1,086 posters, 350 oral presentations, 42 poster discussion, 17 Lunch & Learning topics, 16 keynotes, 16 symposia, five hands-on workshops and three plenary sessions). Delegates also had the opportunity to visit the exhibit hall, which housed 44 exhibit booths: 24 commercial exhibitions and 20 educational exhibitions.

AADR held its 3rd Fall Focused Symposium on November 12-13, in the Washington, DC, area. This year, the theme was the fast-moving field of Salivary Diagnostics, with a focus on Scientific & Clinical Frontiers. The symposium was sold-out, but AADR also offered a live Webinar broadcast of the oral sessions.

• **Canadian Association for Dental Research** The CADR held its 34th Annual Meeting in conjunction with the AADR Annual Meeting in Washington, DC, March 3-6. The CADR also worked with the Canadian Institutes of Health Research to promote April Oral Health Month, and the benefits of proper dental and oral care.

• **Mexican Division** The annual session of the Mexican Division of the IADR was held in Acapulco, May 30 to June 3. There were 110 IADR members and non-members who attended the meeting, and there were 28 oral and 24 poster presentations. The Unilever Hatton Divisional Award Competition was held to select the Mexican representatives for the 2011 IADR General Session & Exhibition Unilever/Hatton Competition in San Diego, California, USA.

› **PAN EUROPEAN REGION**
   (British, Continental European, Irish, Israeli, Russian [Section], Scandinavian) The 5th General Session of the Pan European Region (PER) was held in conjunction with the 88th General Session of the IADR in Barcelona Spain, July 14-17. The PER General Session allowed attendees to share and deepen their knowledge. It provided first-hand information on new developments, current and future trends, and late-breaking news.

• **British Society for Oral and Dental Research** The British Society for Oral and Dental Research and the IADR Oral Microbiology and Immunology Group (OMIG) held a meeting November 10-12, 2010, in Gregynog Hall, Newtown, Powys, Wales, UK. The program titled OMIG does ‘omics’ focused on current research in omics and meta omics, as well as a dedicated session for post-graduate student presentations (replacing the poster session).

IADR 2009 OPERATIONAL HIGHLIGHTS

Sources of Revenue US$ 4.1 Million

- Meeting Registrations: 51%
- Dues: 18%
- Contributions/Meeting Sponsorship: 20%
- Publications: 10%
- Miscellaneous: 1%

Expenses Incurred under Programs and Management US$ 4.0 Million

- Meeting: 56%
- Management: 22%
- Publications: 5%
- Awards & Fellowships: 12%
- Members: 3%
- Regional Development Grants: 2%
FUTURE INITIATIVES

IADR TO OFFER A SMARTPHONE APPLICATION FOR ITS 2011 GENERAL SESSION

In 2011, IADR will offer a smartphone application for the 89th General Session & Exhibition, which will be held in conjunction with the 40th Annual Meeting of the American Association for Dental Research and the 35th Annual Meeting of the Canadian Association for Dental Research. Through use of the 2011 IADR meeting app, delegates will have information about the meeting available at their fingertips and they will be able to receive important meeting updates from IADR. The app will also include a social networking element, which will enhance the meeting experience for delegates.

FUTURE MEETINGS

2011: The 89th General Session & Exhibition of the IADR will be held in conjunction with the 40th Annual Meeting & Exhibition of the AADR and the 35th Annual Meeting of the CADR, March 16-19, 2011, in San Diego, Calif., USA.

2012: The 90th General Session & Exhibition of the IADR will be held June 20-23, 2012, in Rio de Janeiro, Brazil.

2013: The 91st General Session & Exhibition of the IADR will be held in conjunction with the 42nd Annual Meeting of the AADR and 37th Annual Meeting of the CADR, March 20-23, 2013, in Seattle, Wash., USA.

2014: The 92nd General Session and Exhibition of the IADR will held in Cape Town, South Africa.
