2. **Membership Report** *(to be completed by IADR Global Headquarters Staff prior to submission of report [based on 2014 membership]).*

- Full Members:
- Retired Members:
- Student Members:

3. **What is the date and location of your 2014 and/or 2015 meeting (if applicable)?**
   - March 20, 2014 - Charlotte, NC
   - March 12, 2015 - Boston, MA

4. **Prior and Planned Activities for 2014 – 2015**
   See attached
In 2013 – 2014 CADR engaged in the following activities:

- CADR awarded four CADR Student Research Awards in 2013. Winners attended the AADR/CADR meeting in Charlotte, NC and the top two were invited to represent Canada at the Hatton award competitions in Cape Town, South Africa. CADR successfully secured sponsorship for the awards from Henry Schein Canada. Trainees working in dental and oral health research in Canada applied for a CADR Student Research Award by submitting a manuscript describing their studies. The competition was judged by a panel of leading oral health researchers from across Canada.

  The two winners invited to present their research in Charlotte were:
  Kathleen Martin, Western University – 1st place in the Junior category
  Iwona Wenderska, University of Toronto – 2nd place in the Senior Basic Science category

  The Hatton representative were:
  Corneliu Sima, University of Toronto – 1st place in the Senior Basic Science category
  Xixi Wu, McGill University – 1st place in the Senior Clinical Science category

- As a result of receiving additional funding from Quintessence publishing, CADR extended its CADR-Quintessence Visiting Professorship by one additional year. The winner of the last competition, Dr. Elham Emami from the University of Montreal, conducted a very successful visit at Dalhousie University in December 2013. She gave two presentations and conducted in-depth discussions with researchers on the area of community-based participatory Aboriginal health research.

- The IADR Board approved in Cape Town that an IADR General Session will be held in Vancouver, BC in June 2019. This event will increase the visibility of Canadian Oral Health researchers while providing a world-class venue for the international meeting.

- CADR continued its efforts to recruit new members for its Institutional Membership category, primarily geared towards Canadian Educational institutions. Four institutions – The University of British Columbia, Dalhousie University, the University of Manitoba and Western University – joined this category in 2014. CADR also established an Associate Membership for practicing dental clinicians.

- CADR actively contributed to the organization and success of the AADR/CADR meeting in Charlotte, NC in March 2014 and held a well-attended Annual General Meeting and Reception for its members at the meeting.

- Elections were conducted in January 2014 and Dr. Ana Velly from McGill University was re-elected as Councilor-at-Large for the second term.

- CADR submitted a Letter of Intent for the IADR Regional Development Program in the fall of 2013 again. Dr. Catherine Poh from the University of British Columbia and Dr. X. Portia from UNAM, Mexico were collaborating in this project. The application was considered in the second stage, but did not receive funding.

- CADR successfully obtained a “Letter of Continuance” from Industry Canada in the summer of 2014. The new Canada Not-for-profit Act (NFP Act) established a new set of rules for federally incorporated not-for-profit corporations in Canada. As a result, CADR had to comply with the new regulations and revise certain sections of its Constitutions and Bylaws.

- CADR continued its discussions with the Institute of Musculoskeletal Health (IMHA) and Canadian Institutes of Health Research (CIHR) to ensure that oral health research remains a
priority in their funding plans. Dr. Debora Matthews, Past-President and Dr. Jeff Dixon, a long-term CADR member, are both members of the Institute Advisory Board (IAB) of IMHA. They regularly attend the CADR Executive’s teleconferences to provide updates about new initiatives, funding opportunities and to disseminate information that might be of interest for the oral health research community in Canada. These updates are also regularly included as news items in the membership emails.

- CADR promoted the visibility of oral health research in Canada by providing written reports for the Canadian Dental Association (CDA) Annual General meeting in April 2014 and for the annual meeting of the Association for Canadian Faculties of Dentistry (ACFD).
CADR’s priorities and planned activities for 2014–2015 are:

- Continue to work with IMHA and CIHR to ensure that oral health research remains a priority in their funding plans.
- Actively promote institutional membership to educational institutions in Canada and pursue partnerships and sponsorship opportunities with industry partners and government agencies.
- Pursue alignment and tangible collaborations with the Network for Canadian Oral Health Research (NCOHR).
- Promote membership in CADR/IADR among Canadian oral health researchers, undergraduate and postgraduate dental students.
- Elect a new Vice-President and a new Councilor-at-Large for the 2015–2017 term.
- Continue to revitalize the CADR Student Research Group and provide guidance and organizational support for their activities.
- Continue to work with IADR and AADR to plan a successful IADR/AADR/CADR meeting in Boston, MA, USA in March 2015.
- Continue discussions with IADR/AADR about the organization of the upcoming IADR meeting in Vancouver, BC, Canada in June 2019. Continue developing a mutually agreeable MOU for meeting revenue sharing arrangements.
- Pursue collaborations within the North-American Region (NAR) and provide leadership in the organization of any potential IADR Regional Development applications.
- Continue to work with IADR on issues of mutual interest.
