2. **Membership Report** *(to be completed by IADR Global Headquarters Staff prior to submission of report [based on 2015 membership]).*

Full Members:  
Retired Members:  
Student Members:  
Affiliate Members (if applicable):  

3. **What is the date and location of your 2015 and/or 2016 meeting (if applicable)?**  
March 12, 2015 - Boston, MA  
March 17, 2016 - Los Angeles, California  

4. **Please indicate the time of year your annual officer election is held. Is your election held in person or electronically?**  
January - February via electronic voting  

5. **Prior and Planned Activities for 2015 – 2016**  
See attached
In 2014 – 2015 CADR engaged in the following activities:

- In 2014, CADR partnered with the Network for Oral Health Research (NCOHR) to offer the CADR-NCOHR Student Research Awards. As part of this initiative, six CADR-NCOHR Student Research Awards were given out in 2014. Winners attended the IADR/AADR/CADR meeting in Boston, MA and the top two were invited to represent Canada at the Hatton award competitions. Trainees working in dental and oral health research in Canada applied for a CADR Student Research Award by submitting a manuscript describing their studies. The competition was judged by a panel of leading oral health researchers from across Canada.

The six winners invited to present their research in Boston were:
Richard Miron - University of Laval (Hatton competitor)
Shahrzad Danesvahr - Dalhousie University (Hatton competitor)
Kendal Creber - Western University
Mohamed Nur-Abdallah – McGill University
Annie Shrestha - University of Toronto
Hai-Sle Moon - University of British Columbia

- CADR continued its efforts to retain and recruit members for its Institutional Membership category, primarily geared towards Canadian Educational institutions. In 2014 seven institutions – The University of British Columbia, Dalhousie University, the University of Manitoba, University of Montreal, University of Toronto and Western University - joined under this category. CADR also had its first inaugural member under the newly established Associate Membership category for practicing dental clinicians.

- CADR actively contributed to the organization and success of the IADR/AADR/CADR meeting in Boston, MA in March 2015 and held a well-attended Annual General Meeting and Reception for its members at the meeting.

- Elections were conducted in February 2015 and Dr. Faleh Tamimi from McGill University was elected as Councilor-at-Large for the 2015-2017 term.

- CADR co-sponsored the report “Improving Access to Oral Health Care for Vulnerable People Living in Canada”, which was published by the Canadian Academy of Health Sciences (CAHS) in December 2014. The report concluded a three-year evaluation by a multi-disciplinary Canadian Academy of Health Sciences (CAHS) panel into the issue of access to oral health care among vulnerable groups in Canada. The publication can be accessed here: http://cahs-acss.ca/wp-content/uploads/2015/07/Access_to_Oral_Care_FINAL_REPORT_EN.pdf

- CADR continued its discussions with the Institute of Musculoskeletal Health (IMHA) and Canadian Institutes of Health Research (CIHR) to ensure that oral health research remains a priority in their funding plans. Dr. Jeff Dixon, a long-term CADR member, and a member of the Institute Advisory Board (IAB) of IMHA attends the CADR Executive’s teleconferences to provide updates about new initiatives, funding opportunities and to disseminate information that might be an interest for the oral health research community in Canada. These updates are also included as news items in the membership emails.

- CADR promoted the visibility of oral health research in Canada by providing written reports for the Canadian Dental Association (CDA) Annual General meeting in April 2015 and for the annual meeting of the Association for Canadian Faculties of Dentistry (ACFD) held in June 2015 in Saskatoon, SK.
CADR’s priorities and planned activities for 2015–2016 are:

- Continue to work with IMHA and CIHR to ensure that oral health research remains a priority in their funding plans.

- Actively promote institutional membership to educational institutions in Canada and pursue partnerships and sponsorship opportunities with industry partners and government agencies.

- Pursue alignment and tangible collaborations with the Network for Canadian Oral Health Research (NCOHR).

- Promote membership in CADR/IADR among Canadian oral health researchers, undergraduate and postgraduate dental students.

- Continue to revitalize the CADR Student Research Group and provide guidance and organizational support for their activities.

- Continue to work with IADR and AADR to plan a successful AADR/CADR meeting in March 2016 in Los Angeles, California and the IADR meeting in Seoul, Republic of Korea in June 2016.

- Continue discussions with IADR/AADR about the organization of the upcoming IADR meeting in Vancouver, BC, Canada in June 2019. Continue developing a mutually agreeable MOU for meeting revenue sharing arrangements.

- Pursue collaborations within the North-American Region (NAR) and provide leadership in the organization of any potential IADR Regional Development applications.

- Continue to work with IADR on issues of mutual interest.
