Bogotá, Colombia • June 21-24, 2023

IADR/LAR General Session Open for Late Breaking Abstract Submissions

The IADR invites you to submit an abstract to the 2023 IADR/LAR General Session with WCPD (Bogotá, Colombia) for the IADR/LAR General Session's scientific program covering Late Breaking News. These abstracts are meant to cover new research findings made since the close of the regular abstract submission process. The IADR Annual Session Committee will review the late breaking abstracts.

Please keep in mind:

1. Accepted abstracts will be organized to be presented in an Interactive Talk session within the scientific program for the IADR/LAR General Session taking place from June 21-24, 2023.
2. The abstracts will follow the same format, word limit, rules, and guidelines as traditional IADR/LAR General Session abstracts as outlined in the Call for Abstracts.
3. Late breaking abstracts cannot be duplicative of abstracts already submitted as an IADR General Session Abstract Submission type or a WCPD Abstract Submission type. This is **not** an opportunity to submit updates or revise abstracts already submitted.
4. Designated presenters on late breaking abstracts may not already be a presenter on an abstract submitted as an IADR General Session Abstract Submission type.
5. Late breaking abstracts may not apply for any abstract based awards.
6. Accepted abstract presenters are required to complete registration by the presenter pre-registration deadline of April 19, 2023 to keep their abstract in the scientific program.
7. Space for late breaking abstracts is limited.

To submit your abstract:

Submission Deadline: March 27, 2023, 11:59 p.m. PT

E-mail notifications of Acceptance/Rejection will be sent April 4, 2023
