Travel & Visa Information

If you need a visa and have not yet begun the [application process](#), we recommend you do so immediately. All registered delegates can request a visa invitation letter from IADR upon request. Please note that even if you apply online, the stamping of your passport must take place in person at a Colombian consulate. [Check to see if you need a visa](#).

Questions? Email us at [registration@iadr.org](mailto:registration@iadr.org).

Health and Safety Requirements
All attendees must be fully vaccinated against COVID-19 by the date of their first day of attending the General Session or associated venues. Proof of vaccination must be uploaded to the official SafeExpo page no later than June 16.

All attendees will be required to follow current COVID-19 protocols in place at the country and local levels, including the event venue, as of the first day of the General Session. Travelers to Colombia must complete the Check-Mig form within 72 hours of boarding an inbound or outbound flight.

More information can be found on the Health and Safety page.

Tours and Attractions

The following optional tours are available to General Session attendees and have pick-ups close to the Ágora Convention Center.

- Plaza de Bolivar and Cerro de Monserrate
- Panoramic Tour of Plaza de Bolivar and the Gold Museum
- Coffee Tasting in Matuca
- Grafitour

Payment for the tours is the responsibility of each attendee. For information and details on how to schedule a tour, please click on the links provided or email meetings@iadrl.org.

Johns Hopkins Global Health Systems Summer Institute Courses

The Department of International Health at the Johns Hopkins Bloomberg School of Public Health is hosting a Global Health Systems Summer Institute. The Institute is a great opportunity for early- to mid-career public health professionals to expand their skill sets and improve job performance. Choose from 23 short-term global courses from June 5–30, 2023, most of which are offered online. Topics include global health technology and innovation, health economics, primary health care, global health entrepreneurship, health systems strengthening, the private sector and global health, health systems management, health policy, health financing, and more.

View the complete schedule and course descriptions.

IADR CED/Scandinavian Divisions Host Oral Health Research Congress

The 2023 Oral Health Research Congress in Rhodes, Greece will feature a broad scientific program, consisting of state-of-the-art symposia, outstanding keynote lectures, as well as oral & poster presentations by researchers from Europe and beyond. The event is organized by the Continental European Division (CED-IADR) together with the Scandinavian Division (NOF) of IADR.

Save the date: September 21-23

NEWS & ANNOUNCEMENTS

IADR Intervenes at United Nations Multi-Stakeholder Hearing on Universal Health Coverage

IADR participated in the UHC hearing as well as in a series of relevant side-meetings along with other stakeholders including civil society organizations, philanthropic foundations, academia, medical associations, the private sector, and broader communities such as the NCD Alliance, UHC2030, and the Health Caribbean Coalition.

The hearing was divided into an opening segment, two panels – UHC as a Driver to Accelerate Health for All and From UHC Commitment to Actions and Accountability – and a closing segment. There was also an opportunity for all relevant stakeholders to provide verbal interventions that contribute to the ongoing preparatory process for the High-Level Meetings, with a focus on the current state of efforts and top needs to accelerate response.

IADR was granted the opportunity to provide a verbal intervention (on behalf of both IADR and the FDI World Dental Federation) that emphasized that health systems can only be strengthened for UHC by including oral health care services and financing mechanisms that reimburse oral disease prevention and treatment.

View the video of the IADR/FDI intervention here (circa 2:35:45).

Featured Content:

- Traditional Medicine to Relieve Hyposalivation
- The Next Generation in Regeneration - Bioengineering-driven Approaches
- Optimal Conduct and Report of Randomized Controlled Trials in Cariology

IN MEMORIAM

We are saddened by the loss of Arthur Veis, longtime member of IADR, who passed away on April 23.

Veis was a professor emeritus in Cell & Developmental Biology at the Feinberg School of Medicine and Northwestern University, where he received his Ph.D. His research focused on the mechanisms of biomineralization in bones and teeth, and the role of non-collagenous “SIBLING” proteins in regulation of mineral placement in collagen matrices.

Read the full obituary here.

DONATE
Thank you in advance for your investment in IADR!

**FUTURE MEETINGS**
